We are seeking $5 million in the FY’20 budget to address the housing and support service needs of unaccompanied youth and young adults, ages 24 and younger, who are experiencing homelessness.

Requests:

- $5 million for housing and wraparound services for unaccompanied youth under the Executive Office of Health and Human Services (EOHHS) line item, 4000-0007. (This is $1.7 million above the Governor’s FY’20 request and the FY’19 funding level of $3.3 million.)
- This investment would provide expanded funding for the unaccompanied youth homelessness law, An Act promoting housing and support services for unaccompanied homeless youths, to ensure that the law truly is meaningful for youth without homes (See Chapter 6A, Sections 16W and 16X of the Massachusetts General Laws).
- The additional housing and service resources would be targeted to youth and young adults age 24 and younger who are experiencing homelessness out on their own, outside the custody or care of a parent/guardian.

Why Now?

There is a desperate need for increased housing, shelter, and service options for youth and young adults age 24 or younger who are living outside the custody and care of their parents or guardians. We know all too well that youth homelessness takes its toll on both the youth and our society at large. People who experience homelessness as adolescents often face bleak outcomes. While many youth are resilient and are able to overcome the ravages of homelessness, homelessness often leads to poor health outcomes including increased risk of death, exposure to violence, susceptibility to exploitation and high risk behaviors, and poor academic performance with increased risk of dropping out of school.

In April and May 2018, under the leadership of the Massachusetts Commission on Unaccompanied Homeless Youth and in partnership with youth and youth providers, the state conducted its fifth annual statewide youth homelessness survey through the Continua of Care networks. 2,150 of the young people who participated in the survey were under the age of 25, and of those young people, 738 youth (34.3%) indicated that they currently were experiencing homelessness out on their own, with 17.5% of the young people meeting the Commission’s definition of homelessness staying outside, in an abandoned building, in a car, or in another location not meant for human habitation. An additional 77 young people (3.6%) currently were experiencing homelessness along with their parent or guardian. Another 462 young people (21.5%) currently had housing, but had experienced homelessness in the past, and 35 youth (1.6%) said that they had housing that day, but were unsure if they would lose it in the next two weeks. The results are helping to shed more light on the extent of youth homelessness and the needs of young people here in the Commonwealth. See the reverse side for some data from the survey. More information is available at www.mahomeless.org/advocacy/unaccompanied-youth-homelessness.

We know that the time to act is now. The $3.3 million included in the FY’19 budget, and the $3.7 million total included in the FY’16-FY’18 budgets have helped to lay the foundation for addressing youth homelessness in the Commonwealth. Increased funding of $5 million in FY’20 would provide much-needed resources to further build up a systematic, effective response to unaccompanied youth and young adult homelessness across Massachusetts.
Where Young People Slept the Night Before the Survey

Reasons Young People Were Not Living with Parent/Guardian

Organizational endorsers (as of April 3, 2019):
